Dear Friend

Your support of The Guardian Angels is truly appreciated.

Our new brochure, hot off the presses, will provide you with details about how we are using the generous donations of businesses, organizations, and friends to help keep homes, schools, neighborhoods, and Internet spaces safe for families and children. We encourage you to peruse the brochure to learn more about how Guardian Angels Community Safety Patrols, School-based Educational Programs, and the CyberAngels Internet Safety Program are helping protect citizens of all ages from harm, and empowering individuals, especially our youth, to make wise choices and lead positive, productive, contributing lives.

We are forging exciting new paths, entering new collaborations, and expanding our offerings, thanks to your believe in us and your contributions. We receive queries and pleas daily from individuals looking to protect their community members and loved ones from a plethora of societal ills. Additional opportunities are on the horizon that will allow us to continue to enrich and expand our safety programs and broaden our reach in the U.S. and beyond. Please visit our virtual sources of safety information - www.guardianangels.org and www.cyberangels.org - to learn more about our activities and plans, or to send a contribution. You can be part of our safety solutions.

Thank you for being an Angel!

Sincerely,

Curtis and Mary Sliwa
