

Guardian Angels 29th Anniversary

On this, the 29th anniversary of the start of the Guardian Angels, I can think of no letter that better compliments all that we have achieved during this time than to have an invitation go out to us from strife torn Kenya. If you look at the recent news headlines you see that this stable democracy in Africa has been torn apart of late by sectarian violence and lawlessness. The fact that people would think of our program as a possible remedy as they have previously in New Orleans, Cape Town, Mexico City, and Rio De Janeiro speaks volumes for all that you have done and all that we have achieved.

Happy 29th Birthday! Keep up the great work all over the world, and friends of the Guardian Angels, as you can see, we've never needed your help as much as we need it now.

Best,
Curtis

I have been following the Guardian Angels organization since I was a child, so fascinated by your organization

I am currently working at UN-Habitat as an intern in the Nairobi, Kenya Headquarters, working in the partners & youth section with side-focus on safety and development in cities.

I realize that there is of course, the possibility of danger in every city, every nation, but I had always thought these problems were heightened in a developing nation, especially those found in countries of Africa. It is because of this that I was so surprised to have found a GA Chapter in South Africa, and am wondering if I could get more information on the safety provisions for your volunteers or a little more information on how it is that you run the program in Cape Town? In further, I am also wondering if you have considered the possibility of bringing the GA program to Kenya? Perhaps we could partner or help you develop the program here? As safety has become an increasing issue in light of the post-election violence, we are always looking for new ways in which we can improve the safety and lives of the inhabitants of this as well as surrounding cities.

I can see such great potential in the collaboration of our organizations, and I look forward to hearing from you soon!
